TECHNICAL SKILLS

- Programming languages
- Web development
- Databases
- Operating Systems

PROGRAMMING LANGUAGES

- Java
- Python
- C / C++
- Java Script

FRAMEWORKS

- Node JS
- Express JS
- React

SOFTWARE & TOOLS

- IntelliJ IDE
- Visual Studio Code
- Eclipse
- GitHub

PROFILE

As an undergraduate in Software Engineering, I have developed a foundation in programming and problem-solving. I have gained practical experience through academic group projects, collaborating with peers to deliver software solutions. I am eager to apply my skills in real world projects and continue growing as a software developer.

EDUCATION

University of SLIIT

2023-present

- BSc (Hons) in Information Technology, specializing in Software Engineering from SLIIT
- CGPA - 2.96

Bandarawela Central College

2007-2020

- Successfully completed GCE O/L examination (2017) and A/L examination (2020) in Physical Stream.(Mathematics - 1C and 2S')

COURSES

Esoft Metro Campus

2023-2024

- Successfully completed Diploma in ICT in ESOFTE Metro Campus

University Of Sabaragamuwa

2022- 2023

- Successfully completed Diploma in English at Sabaragamuwa University Sri Lanka.

Open University Sri Lanka

2022

- Accomplished a Certificate course in ICT at Open University Sri Lanka.

PROJECTS

Smart Pet Care Marketplace

- Developed a user-friendly platform connecting pet owners with service providers. Implemented full CRUD operations for services, reviews, and user profiles, enabling seamless interaction and efficient service management between users and providers.
- Tech Stack: MongoDB, Express.js, React, Node.js (MERN)

Online Bus Ticket Reservation System

- Implemented full CRUD functionalities to ensure efficient reservation handling and a seamless user experience through complete front-end and back-end development.
- Tech Stack: Java (Front-end & Back-end),html, css

Online Learning Management System

- Contributed to building a platform for students and teachers to manage and interact with courses. Implemented CRUD functionalities for handling course materials, assignments, and user interactions.
- Tech Stack: PHP, JavaScript

Food Ordering System

- Developed a responsive and interactive website modeled after KFC's official platform. Integrated full CRUD functionality, showcasing strong skills in MERN , modern web technologies, and database handling.
- Tech Stack: React, Database Management. MERN
